The Station copies of the original reports on SZULC have been destroyed. I attach, however, a memorandum consisting of selected entries from his card.

- All the information is from the same source, a Polish emigre who knew SZULC personally and also had informants in the Polish Embassy.
- There is little doubt that SZULC was pro-communist at the time, and that he co-operated with Ignacy SACHS, a cousin who was employed by the Press Section of the Polish Embassy, and provided him with "information". . It would, however, be unwise to jump to the conclusion that this collaboration took the form of espionage, since SZULCs does not seem to have made any secret of the relationship.
- I can find no evidence that Ignacy SACHS was an intelligence officer, but he seems to have been an active propagandist. He returned to Poland in 1954. A report from the same source, dated June 1956, stated that he then occupied the Brazilian desk at the Polish Institute for International Affairs.

Using his "Uncle" introduction letters (the U.S. Ambassador John Wiley married to Polish born, Irene BARUCH, who is the sister of the first Mrs. SZULC), he obtained a job with Americans on orders from the Poles. Subject is helped financially by the Polish Legation in Rio de Janeiro. Thanks to introduction letters from the WILEYS, SZULC penetrated several circles in New York. The two are relatives and boyhood friends and subject writes personal letters to SACHS containing matters of interest to the Polish Legation. Subject also has useful contacts in New York in political and artistic circles, obtained through his Aunt. Is believed to be trying to obtain American citizenship through having married an American woman.

Sept. 1951:

Personal reports on the U.S. Ambassador to Panama, John WILEY, continue to be forwarded by the Polish Legation in Rio de Janeiro to Warsaw via subject.

March 1952:
